## COMPANY PROFILE

The company set product research and development, design, production, sales in one, and strive to provide customers with quality products and services, the company produced lithium battery charging drill and other products, domestic and foreign customers unanimously recognized and praised! Products are excellent quality, novel appearance, comfortable operation feel and sell well in domestic and foreign markets. In addition to providing our own brand of products, we are also happy to customize products and labeling services according to customer requirements.

As a manufacturer of charging tools and accessories, we will take the market demand as our goal, and create first-class charging tools with superior value and cost-effective for our customers!

**OEM**  
**Tailored**

The company relies on years of experience and strength Various models and colors can be customized according to the needs of consumers.
